## PROFILE

---

I am an extroverted and reliable individual with a strong passion for technological development across various fields, as well as a dedicated musician. While I have a basic understanding of programming, I find greater fulfillment in managing resources and projects, engaging with clients, and collaborating with development teams. I consistently set ambitious goals and pursue them with perseverance. My achievements often result from a combination of personal dedication and effective teamwork, honed through experiences in both academic and musical environments. I am able to find solutions beyond my immediate scope, driven by my determination and desire to make a significant impact on the projects I work on, compensating for my young age.

## EDUCATION

---

### Università degli studi di Urbino

*Bachelor in Computer Science*

2018 - 2023

*Urbino*

## EXPERIENCE

---

### Junior Information Technology Consultant

*Avvale S.p.A.*
